***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-15 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Vosbikian.

See body 1, apertures 7,8,9, protrusions 5, walls 4, bottom wall 5 and slots 15. The limitations concerning the body configured to support a shelf, having slots for supporting a shelf, configured to engage a standard, etc., are merely functional recitations of which the bracket of Vosbikian is capable of achieving.

Further, see hook 11. All recitations concerning the intended use of the hook are merely functional recitation of which the hook is capable of achieving.
